Table 23. 2 nd Return Points Won % (Average)	50
Table 24. Match Time (Average hours per march)	52

ANNUAL REPORT

GENERAL PERFORMANCE RANKING[®] by COUNTRIES (GPI Ranking[®])

2019 SEASON

General Performance Index[®]

(GPI: General Performance Index): *"It is an index that measures the performance that a tennis player or country has had in a given period of time."* This index, not shown here, is used to make the "General Performance Ranking[®] or GPI Ranking[®]".

This index considers, for its calculation, a number of aspects such as the number of played matches and won, the serves, the points won with the serves, the returns, the break points (saved and won) and the tie-breaks. Once the indexes are calculated for a given period of time, the 2019 season in this case, these indexes (not shown here) are sorted from the highest to the lowest and a ranking is established. This ranking is the **General Performance Ranking[®]** or **GPI Ranking[®]**, which is used to order countries by performance in the analyzed season.

The best performance of the season has been achieved by **France (FRA)**, making it the No.

1 in the **General Performance Ranking[®]** or **GPI Ranking[®]** by countries of the 2019 season. The **GPI Ranking[®]** podium is completed by **Spain (ESP)** and **United States (USA)** (Table 1, p.5) achieving the 2nd and 3rd places, respectively.

Other highlighted countries in the **GPI Ranking[®]** have been **Italy (ITA)**, **Serbia (SRB)**, **Germany (GER)**, **Argentina (ARG)**, **Australia (AUS)**, **Russia (RUS)** and **Canada (CAN)** to complete the **Top 10** of the **GPI Ranking[®]** by countries.

The following categories of tournament, which correspond to the 2019 season, have been included for the determination of the **General Performance Ranking[®]** or **GPI Ranking[®]** by countries. The tournaments have been developed on all surfaces, hard, clay and grass (In the Part II the General Statistics by countries can be observed).
