

TOP 100 OF THE GENERAL PERFORMANCE INDEX RANKING[©]

ATP

2023 Season

ANNUAL REPORT

ATP TOP 100 OF THE GENERAL PERFORMANCE RANKING[®] (GPI Ranking[®])

2023 SEASON

General Performance Index[®]
(GPI: General Performance Index): *"It is an index that measures the performance that a tennis player has had in a given period of time."* This index, not shown here, is used to build the "General Performance Index Ranking[®] or GPI Ranking[®]".

This index considers, for its calculation, a number of aspects such as the number of played matches and won, the serves, the

points won with the serves, the returns, the break points (saved and won) and the tie-breaks. Once the indexes are calculated for a given period of time, the 2023 season in this case, these indexes are sorted from the highest to the lowest and a ranking is established. This ranking is the **General Performance Index Ranking[®] or GPI Ranking[®]**, which is used to order players by performance in the analyzed season. As already mentioned in other articles, the **ATP**

² National Tennis Coach (Argentine Tennis Association), Bachelor of Business Administration, Certified Public Accountant, Post grades of Finance Management and Capital Markets, Master of Business Administration (IAE Business School, Austral University, Buenos Aires, Argentina).

Ranking must not necessarily coincide with the **General Performance Index Ranking**[®], in fact, this rarely happens. This **General Performance Index Ranking**[®] is very useful because it allows analyzing and quantifying the performance of an athlete in relation to the other players over a period of time.

The best performance of the season has been achieved by the Russian **Daniil Medvedev** (RUS) number 3 in the world ranking, followed by the Italian **Jannik Sinner** (ITA) and completing the podium of the **GPI Ranking**[®] the Spanish **Carlos Alcaraz** (ESP) number 2 in the world ranking.

Other players highlighted in the **GPI Ranking**[®] have been **Andrey Rublev** (RUS), **Alex-ander Zverev** (GER), **Taylor Fritz** (USA), **Stefanos Tsitsipas** (GRE), **Alex de Minaur** (AUS), **Novak Djokovic** (SRB) and **Holger Rune** (DEN) whom complete the **Top 10** of the **GPI Ranking**[®].

Note that the number one in the world ranking, **Novak Djokovic** (SRB), does not

appear at number 1 the **GPI Ranking**[®], he is in position 9 of the aforementioned ranking. This is because **Djokovic** has played relatively fewer matches this season if we compare him to **Alcaraz**, **Sinner**, **Rublev**, **Zverev** or **Medvedev**, who have played more than 75 matches. In the current season, while **Djokovic** has played 63 games. The calculation of the **GPI Ranking**[®] takes into account the number of games played and won in a season.

Below is the complete table with the **Top 100** of the **GPI Ranking**[®] for the ATP 250, ATP 500, ATP Masters 1000, Grand Slam, Davis Cup and exhibition tournaments (United Cup and Laver Cup).

ATP TOP 100 | Best Performance in the 2023 Season

(updated to December 11, 2023)

Year XIII, Article No. 146
