WTA TOP 100 - STATISTICS OF SEASON 2013

Date of Report¹: 15.11.2013

By Rubén A. Báez²

This report sets out relevant performance statistics to **TOP 100** in each category of those players who have played at least 10 matches in the season 2013.

The analysis covers the period from 01.01.2013 to 10.11.2013. For WTA tournaments are included Premier, International, 125K and Tour Championships categories, the four (4) Grand Slams and the Fed Cup. There are not statistics contemplated for all tournaments classifications including the Grand Slams.

The tables are presented for each player and each analyst can draw their own conclusions. For example, to analyze the performance of a particular player must take into account all categories of statistics. With this procedure will give a good approximation of the real performance of the player so far in the 2013 season. The statistics about winners, unforced errors and net points won are partial so this is the reason that is not published in this report.

Rankings updated 11.11.2013
