ATP TOP 100 - STATISTICS OF 2014 SEASON (Updated)

Date of Report¹: 01.12.2014

By Rubén A. Báez²

This report sets out relevant performance statistics of the ATP **TOP 100**.

The analysis covers the period from 01.01.2014 to 23.11.2014. For ATP are included the ATP World Tour 250, 500, 1000 and the Barclays ATP World Tour Finals. For the ITF are included Australian Open, Roland Garros, Wimbledon, US Open and the Davis Cup. There are not statistics contemplated for all tournaments classifications including the Grand Slams and the others ATP tournaments.

The tables are presented for each player and the analysts can draw their own conclusions. For example, to analyze the performance of a particular player must take into account all categories of statistics. With this procedure will give a good approximation of the real performance of the player so far in the 2014 season. *The statistics about speed serve, winners, unforced errors and net points won are partial so this is the reason that are not published in this report and those that have been exposed in previous reports must take account of this review, are partial and are for reference only.*

Rankings updated 24.11.2014
