ATP TOP 100 - STATISTICS OF 2017 SEASON

Date of Report¹: 11.12.2017

By *Rubén A. Báez*²

This report sets out relevant performance statistics of the ATP **TOP 100** (Ranking updated: 27.11.2017). The analysis covers the period from 01.01.2017 to 27.11.2017. The tournaments included in the tables belong to the ATP World Tour 250, 500, 1000, Next Gen Finals and the Nitto ATP Finals. For the ITF side are included Australian Open, Roland Garros, Wimbledon, US Open and the Davis Cup. We also have included the statistics from the Laver Cup (Exhibition tournament). The statistics from the tournaments classifications (Including the Grand Slams), the Challengers and the others ATP tournaments are not included in this report.

The tables are presented for that each player and each analyst are able to draw their own conclusions. For example, to analyze the performance of a particular player we must take into account all categories of statistics that figure out in the tables. With this procedure, we'll have a good approximation of the real performance of the player during the 2017 season. The statistics about speed serve, winners, unforced errors, forced errors and the net points won are partial so this is the reason that are not published in this report and those that have been exposed in previous reports must take account of this review, they are partial and are for reference only.
