MONTHLY REPORT

TOP 30 OF THE GENERAL PERFORMANCE RANKING©
(GPI Ranking©**)**

2019 SEASON, JUNE

General Performance Index©
(**GPI: G**eneral **P**erformance **I**ndex): *"It is an index that measures the performance that a tennis player has had in a given period of time."* This index, not shown here, is used to make the "**General Performance Ranking**© or **GPI Ranking**©".

The following tournaments, which correspond to the month of June, have been included for the determination of the **Top 30** of the **General Performance Ranking**©: All the tournaments analyzed here are on grass.

- **Libema Open** - ATP 250.
- **Mercedes Cup** - ATP 250.
- **Fever-Tree Championships** - ATP 500.
- **Noventi Open** - ATP 500.
- **Turkish Airlines Open** - ATP 250.
- **Nature Valley International** - ATP 250.

The **ATP Ranking** of the players, which has been considered for this report, is on July 1st, 2019.

The performances of the **Top 30** of the **GPI Ranking**© in the 6 above mentioned tournaments, which started in June, are shown in table 3, where it shows up to the round the players have reached in the tournaments. On the other hand, the 104 players who participated in those 6 tournaments and who compound the statistic sample that has been considered for the statistical calculations, we reiterate, only the 30 with the best performance are exposed in this report.

It can be seen that the **Top 10** of the **ATP Ranking** only appear **Roger Federer** (3), **Alexander Zverev** (5) and **Stefanos Tsitsipas** (6) in the **Top 30** of the **GPI Ranking**© for the month of June (Table 1).

We highlight the June podium formed by, **Gilles Simon** (FRA), **Matteo Berrettini** (ITA) and **David Goffin** (BEL) in positions 1, 2 and 3 of the **GPI Ranking**©, respectively.

Other players outstanding in the **TOP 10** of the **GPI Ranking**© are: **Taylor Fritz** (4). **Pierre-Hugues Herbert** (5), **Felix Auger-Aliassime** (6), **Jordan Thompson** (7), **Miomir Kecmanovic** (8), **Adrian Mannarino** (9) and **Lorenzo Sonego** (10).

As it can be observed, in the previous paragraphs (see Table 1), none of the players that are part of the **Top 10** of the **GPI Ranking**© of the month of June are **Top 10** of the **ATP Ranking**. In addition, only 3 **Top 10** of the **ATP Ranking** are included in the **Top 30** of the **GPI Ranking**©, namely, **Roger Federer** (13), **Stefanos Tsitsipas** (27) and **Alexander Zverev** (29). Moreover, only 11 **Top 30** of the **ATP Ranking** are included in the **Top 30** of the **GPI Ranking**© (please, see table 2 to verify).

About the six tournaments on grass mentioned and included as part of this report for the month of June, four were won by players whom are not belong to the **Top 10** or in the **Top 20** of the **ATP Ranking** (table 3). Only **Roger Federer** (3) has been able to capture a title at the only tournament that he played on grass in June, the **Noventi Open** with venue in Halle, Alemania. The other is the **Top 20**, **Matteo Berrettini** (20), who was crowned in Stuttgart, Alemania defeating the young Canadian **Felix Auger-Aliassime** in the final of the **Mercedes Cup** by 6-4, 7-6 (11). The others two **Top 10** of the **ATP** have had a poor performance in the grass tournaments previous Wimbledon, I am referring to **Stefanos Tsitsipas** and **Alexander Zverev** (table 3).

Table 3 shows until which round the **Top 30** of the **GPI Ranking**© arrived in the month of June.

It is interesting to take a glance to table 4, which shows the ratio of the won matches over the total played matches in the six grass tournaments encompass by this report. This table 4 is led by **Roger Federer**, with a ratio of 100% of won matches over Total played matches (5/5). According to the data in this report, **Stefanos Tsitsipas** and **Alexander Zverev** have only obtained 50%, that is to say, they won half of the matches they have played. Very scarcely performance of the **Top 10** of the **ATP Ranking** in these six tournaments on grass previous to **Wimbledon**. We'll see if the **Top 10**, **20** and **30** improve their performance in the next report, where the **Wimbledon** data will be already available.

Next, the tables with their respective performance rankings or **GPI Ranking**© are exposed as is usual, in each analyzed aspect of the 30 players that achieved the highest performances during the analysis period.
