GRAND SLAMS REPORT

TOP 30 OF THE GENERAL PERFORMANCE RANKING[©] (GPI Ranking[©])

2019 SEASON

General Performance Index[©]

(**GPI: General Performance Index**): *"It is an index that measures the performance that a tennis player has had in a given period of time."* This index, not shown here, is used to make the "**General Performance Ranking[©]**" or **GPI Ranking[©]** ".

The following tournaments of **Grand Slams**, which correspond to the *2019 season*, have been included for the determination of the **Top 50** of the **General Performance Ranking[©]**:

- **Australian Open** – Grand Slam (hard).
- **Roland Garrós** – Grand Slam (red clay).
- **Wimbledon** – Grand Slam (grass).
- **US Open** – Grand Slam (hard).

The **WTA Ranking** of the players, which has been considered for this report, is on September 16th, 2019.

Regard the 179 players, whom participated in these four **Grand Slams** and who compound the statistic sample that has been considered for the statistical calculations, only the 50 that have achieved the best performance in the mentioned tournaments are exposed (table 1).

We highlight, as usual, the podium of the *2019 season* of the **Grand Slams** formed by, **Serena Williams** (USA), **Ashley Barty** (AUS) and **Karolina Pliskova** (CZE), in positions 1, 2 and 3 of the **GPI Ranking[©]**, respectively.

Other players highlighted in the **TOP 10** of the **GPI Ranking[©]** are: **Johanna Konta** (GBR), **Simona Halep** (ROU), **Elina Svitolina** (UKR), **Naomi Osaka** (JPN), **Elise Mertens** (BEL), **Petra Martić** (CRO) and **Qi-ang Wang** (CHN). See table 1.

The undisputed star regarding the performance in the **Grand Slams** of the *2019 season* has been **Serena Williams**. Although **Serena** did not win any **Grand Slam** titles this season, she has obtained the best per-

¹ Report elaboration based on data from official Websites:

² National Tennis Coach (Argentine Tennis Association), Bachelor of Business Administration, Certified Public Accountant, Post grades of Finance Management and Capital Markets, Master of Business Administration (IAE Business School, Austral University, Buenos Aires, Argentina).

formance and regularity of the women's circuit in the **Grand Slams**. **Serena** won the quarterfinals at the **Australian Open**, 3rd round at **Roland Garros**, runner-up at **Wimbledon** and the **US Open**, not bad. **Serena Williams**, like **Federer**, **Nadal** and **Djokovic**, belong to that extinction species, they are a super gifted with mindset that solve problems while they are competing.

Serena Williams has led all the **GPI Ranking**[®] in the different aspects analyzed. Serena, as usual, has stood out in the 1st and 2nd serves and has also stood out in the returns of the 1st and 2nd service of the rivals. On the other hand, there is a group of players who are really excellent and who are struggling to belong to that select group called **Top 10**, **Top 20**, **Top 100**, the cusp of women's world tennis excellence. Those players are the ones in table 1.

As an additional comment, I wish to mention the increasing improvement in the performance of China's women's tennis. In table 1

appears in the **Top 10** of the **GPI Ranking**[®] the tennis player **Qiang Wang** and in position 15 of the same table 1 figure **Shuai Zhang** too. It seems to me that, in the coming seasons, it will be very common to see in the leading places of the **WTA Ranking** and in the **GPI Ranking**[®] the Chinese tennis players. Congratulations to those low-profile players that, little by little, they are moving inexorably towards the top of world women's tennis.

Next, the tables with their respective performance rankings or **GPI Ranking**[®] are exposed as is usual, in each analyzed aspect of the 50 players that achieved the highest performances during the analysis period.

Also, I have made an annex with tiebreaks, aces and double faults.
